No problem.

The legislature just approved the Governor's \$176 million request for clean up. But I know LA County and the LA County supervisor Hilda Solis (FORMER Congresswoman, and former Labor Secretary for President Obama) are concerned that this may still not be enough given the extent of contamination.

Assuming this happens, folks will be looking for a one page summary.

Thanks in advance.

Subject: Exide

Hi

I received a call from Region 9 today concerning an upcoming meeting with Gina and a congress woman from California about Exide and the potential implications for Region 9.

They said they don't have the money to help with the site.

Just a head's up!

Thanks!
